

Galaxy Runway

A runway where you can relax and rejoice.

Hospitality will rediscover its roots. And it doesn't lie in technology or constructing great spaces. Hospitality is all about people. It's about the service and the people delivering it. And bring that additional services that people need and are afraid to ask. Not anymore. Our endeavor is to create a place that makes your life easier. A brand that just needs to have a story to communicate and that story needs to fit in with the local environment and preferences of the community they operate in. Genuine luxury experience unfettered by specific brand or quality standards like thread counts. Luxury that's lazier and smarter.

The right runway for your dreams to take a flight!

A good master plan has a 'vision' that helps shape what happens in the site giving it coherence and a real sense of identity and place. Our endeavor is to maximize the land value based on environmental, functional, architectural factors and adopt a clear strategy for the physical, economical and social transformation of the site. And at a time when many places are beginning to look alike, we believe that our Master Plan has the potential to reinforce its own character with a real sense of identity.

Where Every Store Has A Story To Tell!

The whole retail perception has undergone a metamorphosis. Retail and fashion have merged to form an entertaining experience. And clearly, this changing landscape makes it imperative for real estate investors to anticipate where brands and shoppers will want to go. Our chief challenge is to present Mumbai with a retail extravaganza which embodies exclusivity, timelessness and understated elegance. And also sure to win every shoppers heart, even the most discerning of them.
